

## Specification for Dymenso 2 Megawatt Continuous Wave Load

### Load Performance

Peak Power Level	2 MW
Pulse Length	CW
Frequency	95-170 GHz
Thermal Time Constant	<1 sec

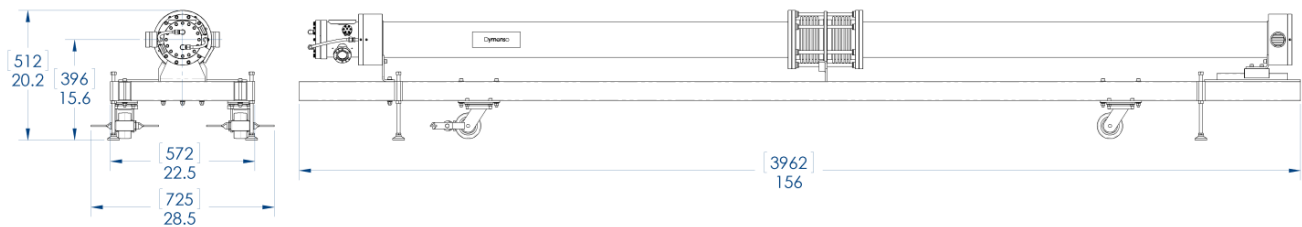

### Cooling Specification

Flow Rate	175 GPM
Coolant	Deionized Water

### Load Construction

Vacuum Seals	Metal
Load Body Materials	Stainless Steel alloys and OFE copper
Arc Detector Viewport	Brazed Sapphire Window

### Dimensions (inches[mm])
